M. D. of Golden Centre

The ninth meeting of Council of the M.D. of Golden Centre, No. 272, was held at 13:30-5, on Wednesday, October 1.

Members all present except Councilor Hoard.

Minutes read and confirmed. Warning was given through local papers that no relief will be granted to able-bodied men and non residents.

The Association of Municipal Districts advised their annual convention will be held November 28-29-30.

Councillors Kirkpatrick and Stewart were appointed as delegates to the above convention.

The following accounts were paid: United Typewriter Co. 5.50; Cereal Recorder 10.55; Oyen Hardware Co. Ltd. 1.35; Reliance Hardware Limited, 45; Thomas Miller, 9.00; Office expense 10.00; Telephone tolls 5.40; Express on supplies, L. C. Michaels, rent \$24; C. C. Wilton 8.00; B. B. Kirkpatrick, fee and mileage road inspection, 39.50.

Frank Barker was appointed deputy reeve for the ensuing five months.

Council adjourned until Wednesday, November 3, 1924.

Ralph Greene, Sec. Treas.

Canadian Apples For Folks And Friends In Old Country

This year's Christmas for our folks and friends across the sea can be made happier by a small remembrance from Canada of a box of our Canadian Apples, hand picked and hand packed; their luster and taste tell of our beautiful Summer Climate.

Your grocer can fill such an order—the Canadian National Express will transport and deliver by rapid express service, including refrigerator storage on steamer to any station in Great Britain or Ireland from Montreal, Que., and Quebec, Que., up to November 15 and afterwards from Halifax, N.S., and St. John, N.B., at a rate of THREE DOLLARS per standard box of apples, not exceeding one cubic foot eight inches in measurement or over fifty pounds in weight. Consult any Canadian National Express Agent as to through express rate from your town.

Subscribe to the Saturday Evening Post, Ladies Home Journal, Good Housekeeping or Maclean's at the News Office.

Funeral of the Late

Leola Ostrander

The funeral of the late Leola Ostrander, younger daughter of Mr. and Mrs. Western Ostrander, whose death occurred in Calgary, Alta., on October 7, took place in Oyen last Thursday.

Service was conducted in the Union Church by Rev. C. R. Curran, at 3 o'clock in the afternoon, when a large congregation was assembled.

The church was decorated with cut flowers and plants, and the casket was covered with many beautiful floral tributes. Special music was sung by the choir and a solo by Mr. W. D. Guthrie was sympathetically rendered. Following the service, the cortege proceeded to Oyen Cemetery, where interment was carried out.

Oyen Chautauqua

Oyen's three-day Chautauqua commenced yesterday and the guarantors are liable to be faced with a somewhat serious deficit on the undertaking.

An attempt was made unsuccessfully, a few weeks ago, to cancel the contract, on account of prevailing conditions.

Yesterday's program, consisted of a lecture in the afternoon "Some Insane Facts on Political Europe" by W. C. McLaughlin and a play in the evening "The Melrose" by the Clark-Brown Players.

Under the auspices of the committee of guarantors, assisted by various local women's organizations, a real old time dance will be given after the last performance on Thursday night. Refreshments will be served. Admission 50 cents a couple.

Except in sheep, Canadian livestock and livestock products show an increase in shipments to the United States all along the line in the January-February period of this year, compared with the corresponding months of last year. Cattle shipments in the period were 11,150, compared with 10,219; beef, 233,409 lbs., compared with 440,000 lbs.; bacon 31,700 lbs., compared with 30,100 lbs.; pork, 165,300 lbs., compared with 90,600 lbs., and mutton 2,490 lbs., compared with 700 lbs.

The first annual pow-wow of the Trail Riders of the Canadian Rockies, which will be held July 18 at Yoho, will take place in a big sun-dance lodge decorated by Stony Indians. The order aims to encourage travel through the Canadian Rockies, outdoor life, nature study and forest conservation, and to foster early explorers. Many noted authors and artists have joined and J. W. Beatty, President of the Canadian Pacific Railway, has donated \$1,000 towards expenses.

The Canadian Pacific S.S. "Empress of Canada" arrived at Vancouver, B.C., on May 24th, following a winter cruise of five months and nearly 30,000 miles. The passengers witnessed a remarkable eruption at Hilo, in the Hawaiian Islands, on May 17th. After a public welcome at Vancouver, they left for the East, stopping en route at Banff Springs Hotel for dinner. E. W. Beatty, President of the Canadian Pacific, who met the ship, said that she had done important missionary work in carrying the Canadian Ensign over the seven seas.

The Empire Medicine

—the preparation which has won the confidence of every country under the British flag—the remedy which has brought health and happiness to millions of men and women in every part of the Empire—the treatment which is resorted to everywhere—for ailments such as Sick Headache, Biliousness, Indigestion and Constipation, often considered insignificant, yet decidedly inconvenient—remedies which have their origin in a dyspeptic condition of the stomach and a torpid action of the liver—

is

WORLD HAPPENINGS BRIEFLY TOLD

Eighty-four thousand lives were lost in the United States last year as the result of accidents. The death toll amounted to 1,462 per day, or 209 a day.

The net debt of Canada dropped \$2,110,786 during September and now stands at \$28,406,631. In September, 1922, the debt showed a decrease of \$2,519,512.

Princess Mary's second child was christened in St. Mary's church, Goldborough, Eng., Oct. 7. The ceremony was in private, and the child was given the name of "Gerald David".

Work on the construction of the gigantic flour mills to be built in Calgary by Spillers Overseas interests, Limited, has already commenced. The new mill will be the second largest in Canada.

The liner Empress of Canada, which docked at Victoria, B.C., from the Orient, brought 162 Russian refugees from Harbin, who were going through to the Irrigated area in Southern Alberta to engage in farming.

M. T. Tinline, for 10 years Superintendent of the Experimental Farm at Brandon, to succeed W. C. McKinnon, newly appointed director of the Manitoba Agricultural College.

The British Government has granted permission to Emir Abdul, ruler of Trans-Jordan, to recruit an army of not less than 4,000 men in his country for the purpose of sending reinforcements to the Hedjaz army in its fight against the Wahabites.

Another Arctic expedition, this time all French and headed by Jules Du Puy, is to start for the polar regions at the end of next March, according to Le Journal. The party will proceed in a specially equipped vessel to the Franz Joseph archipelago, whence an attempt will be made to fly across the North Pole.

Butterfat Production Of Alberta

The butterfat production of Alberta for the seven months ending July 31st shows an increase of over twenty per cent, the total output for the period being 9,840,975 pounds as against 7,443,767 in the same period in 1921.

You will most certainly be interested in studying the new styles shown in this book exclusively.

Wembley Loss Reported Four Million Pounds

Not Much Chance Of Opening Fair Next Year

The Sunday Express asserts that the loss sustained by the guarantors of the Wembley Exhibition is at least £4,000,000.

The question of re-opening the fair again next year, says the Express, is still in the balance, but now that Canada has withdrawn from the project and the other dominions are doubtful of success, the policy of throwing in the towel and the hope of recovering the vast loss looks essential.

The Express also recalls that J. H. Thompson, Canadian Secretary, who asked Parliament for an increase of the Government guarantee for the exhibition, ventured to suggest that "not one copper of the increased guarantee" would be required.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. "This cannot be said of the infant troubled with worms. Miller's Worm Powders will destroy them and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing to effect for restoring the health of a worm-worm infant."

Low Taxes Advertised By South Africa

Pleased At Wembley Exhibition

At the Wembley Exhibition at Victoria, Crowds of visitors to the copy of the old Dutch house, which is the pavilion of the Union of South Africa at the Wembley Empire Exposition, overheard entirely such wonderful things as gold and diamonds, strange beasts and wild fowl, statues, models, murals and pictures when their gaze falls upon a certain placard.

The placard bears this legend: "Income tax, £1,000 a year or less, six per cent; over £1,000 a year, one shilling in the pound."

Some people are said to tear themselves away from this strange legend to go straight to the inquiry office to verify what they feared was an unvarnished assertion, and then to ring up their bankers to ask if there is an adequate balance to purchase a steamship ticket to South Africa.

Alberta Wheat

Evidence of the excellent standard of the season's wheat in Alberta is given in one day's inspections when 60 cars two graded, 10, 1 high, 40 No. 1, 1 Northern, 9 No. 2 and 3 No. 3. The wheat came from fairly well watered districts.

For Corns and Warts—Minard's Liniment

Nickel Mining Industry

Canada Furnishes More Than 90 Per Cent of World's Supply

In a lecture before the British Institute of Metals, Mr. W. M. Corcoran pointed out that nickel alloys had been found in Atlantic coastal basins dating back to 235 B.C., but the value of nickel as a commercial metal was not recognized until 1888. James Riley, of Glasgow, drew attention to the subject. A market for nickel was at once found in the manufacture of armor plate. The separation of nickel from copper was achieved only after many experiments had been tried with most discouraging results. The mining of the metal was an empire industry, 90 per cent of the world's supply.

The world's production of refined nickel had averaged about 60,000,000 pounds a year. The bulk of the metal had been used for nickel steel and ordnance, but the Washington treaty discouraged this market. Aluminum bronze was another non-ferrous material which had only recently attained commercial importance. Its outstanding property was resistance to corrosion, and it possessed a high degree of hardness and strength.

A development, due almost entirely to the war was that the demand for antimonial lead for shrapnel caused a shortage of lead, and recourse was had to a calcium-sulphate alloy, which had since been found to possess remarkable qualities as a bearing metal. Important work was being done both in Great Britain and in the United States on the stainless iron and stainless steel alloys, which contained nickel and chromium, and were expected from the experiments now in progress.

Paper From Alberta Shown

Tests Being Made In Montreal At Dominion Forest Products Laboratory

Tests in connection with the manufacture of paper from Alberta cereal straw are proceeding in a satisfactory manner, according to word received by Howard Stutchbury, Provincial Commissioner. The hundred pounds of soda sulphate was shipped to the Dominion Forest Products Laboratory at Montreal by the commissioner recently, so be used in a bleaching process in connection with the tests, and quantities of beatonic clay, used for coloring, are also in transit shipped.

The sodium sulphate shipped to Montreal was secured from the Millburn railway on the Canadian National Railway, and the beatonic is being obtained from districts south of the city—Edmonton district.

The Poor Man's Friend—Put up in small bottles that are easily portable for a very small sum, Dr. Thompson's Kidney Pills possess power in concentrated form. Its cheapness and safety is a pleasure to the poor man's friend. Don't dealer's stock is complete without it.

Troops By Air

Flying Troop Trains One of the Developments of the Future

Aeroplanes capable of transporting fully armed soldiers—approximately a platoon of infantry—being built for the British Air Ministry. Experts, however, talk with confidence of flying troops able to carry two hundred or three hundred soldiers with equipment, who can be whirled through the sky at a speed of one hundred miles an hour. The new aerial troop-transport machines are being constructed entirely of steel. The first of these troop-carrying trains will be ready for practical tests early next year.

The troop-carriers of the air will add a new and important factor to warfare. It will become possible for a small but highly trained body of troops to cause damage to all types of their numbers—to destroy railways, bridges, roads at important junctions, and military works, and then return as rapidly as they went. Lines of communication will therefore have to be guarded over an infinitely wider area than at present, for planes from the actual theatre of battle will be drawn within the scope of operations.

Minard's Liniment For Dandruff

New Aerial Base

The establishment of a new aerial base at Forest Hill, north of Norway House, for the purpose of extending the air service to the Hudson Bay region, is being planned. The base will be patrolled by the air patrol for fire protection in Manitoba, has been authorized and the buildings are now under construction. The value of the air patrol has proved itself, and will probably be extended next year, according to D. A. Macdonald, Assistant District Forest Inspector, who visited Norway House recently.

Money In Sheep

It has been estimated that Southern Alberta's sheep and wool industry this year will bring shepherds and farmers of the south new wealth to the extent of \$1,600,000.

World's Largest And Strongest Vault

London Bank Has Installed Thief-Proof Safe

Installed in the new headquarters of the Westminster Bank Ltd., London, B.C. is a set of strong rooms which is the largest in the world and guaranteed to be in hand and brain of the cleverest thief.

It has taken two years to build, has two stories, and goes down 25 feet below street level. The walls, many 12 feet thick, are of finest blue brick faced with reinforced concrete and lined with steel plates warranted to resist the hottest flame of the oxy-acetylene blow-pipe.

Three hundred tons of steel have been used in the construction of the rooms, the floors, ceiling and pillars of which are all steel. Each of the four main doors weighs more than 6 tons, but they are so beautifully hinged that when they are moved with one hand. The bolting mechanism, worked by screw of sterling gear pattern, is controlled by a series of locks of unique design. The doors are never opened with a special guard in case of explosives being used in an attack on them.

The largest of the four rooms is 70 feet long. Many carriages of automobiles and speeds can be stored there—tons of money and hundredsweight of securities.

Within these triply guarded walls of brick, steel and cement, about 40 large safes will rest secure from unaided disturbance.

'DIAMOND DYE' IT A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed

Perfect home dyeing and tinting guaranteed by Diamond Dye. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions to single any woman can dye or tint, including silks, ribbons, scarves, waists, dresses, coats, stockings, sweaters, aprons, coverings, hangings, every thing new.

"Buy 'Diamond Dye'—no other kind. It tells you *exactly* whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

American Rice In Europe

An estimated rice shortage of 130,000,000 bushels in Europe this season has resulted in an enormous demand for American rice.

It is estimated that sales to Southern European countries in the last week alone have been in excess of 10,000 bushels. Prices have advanced 8 cents a bushel and are now only 25 cents under the level of wheat, which has a short time ago the difference was 40 cents.

The ease with which corn and wheat can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

China's Burial Grounds

The burial grounds of China have always been held sacred, not to be disturbed under any circumstances. The result is that one-twentieth of the country is now occupied by graves. The problem is assuming serious proportions—barracks Independent.

While it is in the U.S.A. it is not a trademark. The Tablets that Aspirin means Bayer's Aspirin, to assist the public against imitations, the Tablets of Bayer's Aspirin will be stamped with Bayer's cross and the word "Bayer Cross".

SUNDAY SCHOOL LESSON

OCTOBER 19

THE PARABLE OF THE SOWER

Golden Text: The sower sowed the word. Mark 4:14.

Lesson: Mark 4:1-20.

Devotional Reading: Psalm 1.

The Text Explained and Illumined

Parable of the Sower: A sower went forth to sow. The seed fell on the ground. Some fell on the path, some on the rock, some on the thorns, and some on the good soil. The seed on the path was trampled and the seed on the rock was scorched. The seed on the thorns was choked. The seed on the good soil was fruitful.

Edict Against Kissing

Kissing, Smoking and the Shaking of Hands Is Taboo in Russia

Dr. Nicholas Zernakoff, Soviet Consul-General in London, has issued an edict against kissing, which he contends is one of the most potent means of spreading disease.

DO NOT CUT "CAKE" BUT SCRUTIE IT OUT

Remember the "cake" which, gradually forms inside the bowls of Birar pipes should be removed from time to time, says an old smoker. If left in the bowl it is apt to split it because the "cake" or "cone" expands with heat much more rapidly than the wood of which the bowl is made.

The man who wants to get the fullest satisfaction from his favorite tobacco, says a "Macdonald's DIETETIC" will be careful of the way he removes this "cake" however. If the inner surface of the bowl is roughened it will make it liable to burn.

Here and There

Tourist business throughout Canada has been remarkably productive this year and it is estimated that its total value for the Dominion will exceed \$100,000,000. This places the tourist traffic high among Canada's industries.

The "Princess Kathleen", one of the two pleasure liners under construction for the Canadian Pacific Railway's British Columbia coastal service, was launched at Glasgow, Scotland, on September 27th. Lady Mount Stephen, widow of Lord Mount Stephen, former president of the company, performed the launching ceremony.

As an indication of how plentiful wild game has become of recent years in the Province of Quebec comes a report from Montreal, which records the recent appearance of a full-grown bull moose in Roussillon, a suburb of the city. It is thought to have strayed into the neighborhood from the forest to the north. The animal was quite tame and was easily captured.

The Duke of Alba, who, with other Spanish grandees recently completed an extensive tour of Canada, purchased a number of very valuable furs for gifts to be presented to his friends, including the King and Queen of Spain. The furs were acquired while the Duke was enjoining at Banff, the popular mountain resort on the Canadian Pacific main line.

So greatly has the turkey industry grown in Saskatchewan that marketing pools have now been arranged by the Saskatchewan Department of Agriculture and the Saskatchewan Grain Growers' Association for the marketing of both dressed and live turkeys this fall. Inspectors will be furnished for grading and giving killing and dressing demonstrations.

So heavy was the movement of grain from the lakes to the port of Montreal recently that serious congestion was feared. The storage capacity of the port is 10,100,000 bushels and the grain in sight was greatly in excess of this figure. But skilful handling quickly reduced the amount in hand to 7,586,442 bushels, relieving the situation completely. No further possibility of congestion is anticipated.

It is expected that before the season closes, the work of rock-blasting the main lines of the Canadian Pacific Railway in the Quebec District between Montreal and Ottawa, Montreal and Toronto and Montreal and Quebec will be completed. The latter section requires only a few miles to be finished, while the other portions of line referred to have already been finished. As a result, the Canadian Pacific will have in these lines a road-way which is not excelled by any other on this continent.
